ROOSEVELT HAS DEVALUED DOLLAR; PRICE 56.06 CENTS

STANDING OFFER MADE TO PURCHASE GOLD FROM WORLD

The dollar was devalued by President Roosevelt, who gave the world a standing offer to buy and sell gold, according to the needs of international trade, at a fixed price in dollars, an action interpreted by Treasury officials as putting the country "on a modified gold standard."

The President fixed the value of the dollar at 59.06 per cent of its former gold equivalent, and on this basis a price of $35 an ounce was established for international dealings in gold.

With the cut in the dollar's gold content there was established automatically a $2,000,000,000 stabilization fund for the purpose or regulating the foreign value of the dollar, which officials said might not have to be extensively used, as they expected exchange rates would be firmly pegged by the price set on gold sales for export.

For the first time since last March, the President made it possible to settle America's international balances in gold and gave the dollar a definite value.

✦ ✦ ✦

Announced at 4 p. m.

President Roosevelt told newspaper men of his action shortly after 4 o'clock, as he wished the American gold market, which had not closed, to have the benefit of the news, rather than foreign markets, which would open Thursday some hours before those in the United States.

Treasury officials said sales of gold for export would depend on fluctuations in exchange rates, which they expected to be very little.

Golden Wedding Anniversary

MRS. B. D. RODGERS

B. D. RODGERS

Held at their home at Fayburg Wednesday, Jan. 31.

GOLDEN WEDDING DAY OF MR. AND MRS. B. D. RODGERS OBSERVED AT FAYBURG

RESPECTED OLD COUPLE SPENT ENTIRE WEDDED LIFE IN NORTHEAST COLLIN — BEGAN AS SHARE-CROPPERS—NOW OWN MUCH LAND.

Celebrating their Golden Wedding Anniversary Wednesday, January 31, Mr. and Mrs. B. D. Rodgers, were the recipients of congratulations from their children and grandchildren, neighbors and friends. A sumptuous anniversary dinner was served in their hospitable home located in the Fayburg community, about eighteen miles northeast of McKinney.

They were united in marriage, January 31, 1884, at the home of the late Esq. Bill Saye, three miles northeast of Blue Ridge, that early day official performing the ceremony. They returned to the Fayburg community and began housekeeping to themselves next day on a farm rented from the late George A. Wilson, father of Postmaster Wallace C. Wilson, of this city.

Mr. and Mrs. Rodgers are the parents of eight children, four of whom are living as follows: Frank Rodgers, living on a farm owned by his father at Calera, Oklahoma; Mrs. D. D. Presley, of California; Mrs. Cora Brewer, living at home with her parents, and Mrs. Will Braswell, Route 2, Blue Ridge, also living in the Fayburg community. They also have a number of grandchildren.

Mr. Rodgers was born in Cherokee county, North Carolina, May 25, 1858, but when he was a little child, his parents moved to Madisonville, Tennessee, and later to Sweetwater, Tennessee, during the Civil War. He attended district and high schools, procuring a better education than the average child of his time.

When he was twenty-four years old, he started to Texas. Near Hot Springs, Arkansas, he found his cash possessions to be only about $5.00, so he stopped and secured work on the farm at $15.00 per month. After working a month or two, he was employed to teach a school session at Cedar Glades and gave such satisfaction that when that term was out he was employed to teach the Blair school, near Mount Ida, the county seat. He had a first grade certificate. He saved his money and came on to Texas, landing at Melissa, November 20, 1882. He went out into the Fayburg community where he worked as a farm hand at $15.00 per month and made a share crop, cultivating land belonging to the late George A. Wilson and the late A. L. Dunn.

In the course, of a couple of years, he bought an eighty-acre tract of land there for $600 and a couple of years later bought another tract of sixty-five acres.

He devoted his attention to farming and stock raising, made his own molasses, always had plenty of milk and butter, poultry and hogs about him, and he and his good wife raised much of their living in their gardens and truck patches.

They gradually added to their land holdings and now own considerable farm land in Northeast Collin, in Jones county, West Texas; in the Panhandle, New Mexico and in Oklahoma.

Mr. Rodgers never asked a man to go on his note. The first year that he and his wife kept house, the grocery firm of Houaker & Astin of Farmersville let them have a few groceries on a credit. Thereafter, they never asked for credit and bought only what they could pay for unless it was land.

Mr. Rodgers has always kept more or less good brood mares and managed to sell young mules and horses every year and in that way supplemented his farm income. He did the same with cattle.

Mrs. Rodgers was born, January 2, 1859, two miles southeast of Blue Ridge. She was Miss Susie Ann Montgomery, now being seventy-five years old. She has spent her entire life in the immediate vicinity where she was born. She and her husband have led a busy life; their thrift, industry and strict attention to their own affairs have resulted in their accumulation of a competence for their old age. They have stood for better schools, better roads and high class citizenship and have done their full part towards the wonderful development of our county that has taken place during their half century of wedded life.

These editors join in felicitating them.

The President's ball given at the Hill Crest Country club Tuesday night from 9:00 p. m. to 1:00 a. m. was very largely attended, being a success from every standpoint. Quite a few out-of-town visitors were present. The large country club was filled practically to its entire capacity. Everyone was in an enjoyable friendly medium, a large number attending who did not participate in the dances.

An excellent orchestra furnished music. At 10 o'clock the music and all participants stopped and listened kindly, courteously and attentively to President Roosevelt's address. After the President's address, led by the orchestra, the entire audience sang America. Lovejoy Comegys, general chairman, was present looking after every detail, being ably assisted by his associates. Mrs. F. B. Pope, chairman of the ticket sale committee, was present with Mr. Pope. Chairman Comegys Wednesday wishes to thank everyone who in any way made possible the success of the President's Ball in this city. He especially thanks the press of the city, the chairman and workers on each committee and all others who cooperated in any way. Without the cooperation of everyone, he says, the event would not have been a success.

TEXAS SENATE KILLS AUTO LICENSE BILL

FEE MUST BE PAID BY MIDNIGHT TONIGHT, THURSDAY

After having passed it by a vote of 11 to 10, the Senate in Austin, by 9 to 12, killed the House bill to extend until March 31 the time within which to pay the automobile registration fee without incurring the penalty for delinquence. The penalty is 20 per cent of the amount of the fee.

To accord the relief intended, it was necessary that the bill should become effective immediately and to become effective immediately it needed twenty-one votes. Hence passage by 11 to 10 emasculated it as a relief measure, since it could not have become effective until ninety days after adjournment, or more than thirty days after the date to which it proposed to extend the time for payment.

LIMITATIONS OF HUMAN KNOWLEDGE

I am reading the museum of antiquity, or things of three thousand years ago.

It seems to me that men of science cannot explain the beginning of time or the end, and cannot explain why every living thing dreads death.

There is no one who knows where the wild goose goes, either north or south. It's beyond the knowledge of men, and if the leader is killed they wander and never reach their destiny.

The honey bees are organized, their guards and drones and working bee. But when their queen is killed they will swarm from bush to bush and vanish. Hogs, horses and cats will go back to their place of birth when not molested, for many miles.

The only way we can tell how this happens is by the power of God.

The radio has been sunk to the bottom of the ocean and the message has been received from all parts of the United States.

The science of man cannot explain but they know it's the power of God.

I believe that Byrd or some other explorer will find land on the north side of the artic. I believe the balloonist or astronomist will find that meters or metals falling from other countries.

These are all visions of men, but knowledge of God. And the time will come when cities and towns will be anchored on the seas, and a month's rations can be carried in the vest pocket.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right dose of a liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels back to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Editorial Expression

The greatest trouble about all this peace talk is that most countries want the last sword.

Tariff laws have sharply curtailed exports of hog products. The present National Administration is trying to improve our foreign trade in corn, lard and hog meat.

Had President Roosevelt's administration not come to the rescue, Southern cotton farmers would have sold their product for around five cents if, in fact, any market at all could have been found. The staple is now selling from 10 to 11.50 cents per pound. It pays to co-operate with Franklin Delano Roosevelt.

Secretary Wallace points out the demand for corn has declined in the United States, because of the substitution of power machinery for work stock. Where tractors and trucks are in us on the farm, the farmer needn't expect as good a demand for his corn, oats, and other feedstuff as when farms are operated by livestock.

Work is underway on straightening and rebuilding Highway No. 75 between McKinney and the Dallas County line. When it is finished, the distance will be much shortened, and the road wider, better and a smoother concrete highway will be had. These facts will all mean less expense and danger to travelers and the saving of much time. The present narrow "hogback" hard-topped road is positively dangerous to travel over, especially at nights or in rainy weather.

Hon. John Coffman, son of D. G. Coffman, who was born and reared on a farm at Josephine, is being looked to as a possible candidate for judge of one of the county courts of Dallas county. This young native Collin attorney is a well trained, capable lawyer. He would admirably fill the position. His many Collin county friends are expecting him to serve in high positions of trust in days to come.

Southwest Collin citizens and property holders have high hopes that an airline road, 100 feet wide from the Northwest Highway straight into Plano will be built and designated as a state highway. Right-of-way is being secured by a committee headed by Cooper Wyatt, W. T. Jackson and others. This proposed route would connect two heavily traveled state highways. The proposed connecting link route would be through a choice farming section of our county and state.

Frank P. Holland Jr., publisher of the Farm and Ranch and Holland's Magaine, spoke to the Dallas Chamber of Commerce membership meeting on the importance of more attention to livestock and production of feed. Mr. Holland is director in charge of livestock of the State Fair Association. His father, Frank P. Holland Sr., now deceased, founded that great Texas farm paper and did more to help develop agriculture and livestock in Texas than any one other one individual in the history of the state.

Home steam pressure canning and conservation of food has literally grown by leaps and bounds in the United States in the last sixteen or seventeen years. It is estimated that more than 100,000 have been kept out of the breadline by its results during the present winter, thus far, in Texas. It is not generally known, but it is a fact nevertheless, that this mighty industry had its very beginning right here in Collin county. Mrs. Viola McGee, then county home demonstration agent, initiated the movement among the farm club women. The Bloomdale Club was the first to build its own clubhouse and engage in an extensive way in the art of saving surplus food produced on the farm in a palatable way to be used throughout the year. The steam pressure canner and sealer are later inventions. At the present time, it is estimated that there are 4,000 of these outfits owned in Collin county. Possibly, a total of from a half to three-quarters of a million containers of vegetables, fruits and meats were canned by Collin women during 1933. Many town women also own these canning outfits. They are enabled to save their products as they come on during the various months of the year and store them away to be used as needed regardless of the month of the year. The natural flavor and freshness of green vegetables, fruit and meats of every kind are retained by the art of canning as now understood and practiced by our farm women. The McKinney Chamber of Commerce, of which Avery Dowell was president for five or six years, co-operated with Mrs. McGee and the farm women in developing the art and popularizing it. The big J. P. Dowell Hardware & Furniture establishment led other local merchants and dealers in handling improved equipment in a big way. In the last few weeks, the Dowell establishment has had inquiries and orders for canning supplies and equipment from such remote quarters of the globe as Siam, India, New Zealand, Mexico and Central and South American countries. Miss Helen Dunlap present county agent is leading her club women in food conservation in a way that saves farm homes thousands of dollars every year in grocery bills and provides them with a greater variety of the most wholesome food.

For District Clerk

Prof. Floyd W. Taylor of Lavon Announces His Candidacy

This paper is authorized to place in its announcement column for district clerk, the name of Prof. Floyd W. Taylor, serving as superintendent of school at Lavon in Southwest Collin.

This young (27 years old) man is a native of our county, having been born at Princeton while his parents were living at that place where his father, the late Prof. T. J. Taylor Jr., was school superintendent for seven or eight years. This ambitious young educator and ctiizen received his public school education in McKinney and took his four-year college course at the Kansas State Teacher's college, at Pittsburg, Kan., and is the possessor of a life-time teacher's certificate.

Floyd's father was elected district clerk of this county, but died in about a month after being sworn into office. Floyd was one of three children—himself and two sisters whose care and education were left to his widowed mother. But he was undaunted and not in the least discouraged in the determination to obtain a high school and college education by the premature death of his honored father and the lack of means possessed by his widowed mother to aid him. He remained in school and college largely by dint of hard work and his own resourcefulness to defray expenses incident to getting an education. He literally burned the mid-night oil, because, on evenings and week-ends, he had to work every spare minute to meet school expenses. But he knew what he was there for. He applied himself diligently to the tasks in hand, not spurning nor slighting the most menial labor that he found it necessary to perform to procure needed funds to keep him in school and to help his widowed mother educate and care for his young sisters.

Such metal, as he exhibited, in these crucial character and stamina tests for any boy, enabled him to reach his goal. He has been teaching for six or seven years, remaining as long as four years at one place and is teaching his second year now at Lavon. He has a young wife and a fine little ten-months-old son, Floyd, W. Jr.

He is a young citizen of splendid personality, schooled from boyhood to take the hard knocks of fate with a smile and to hold on with grim determination in pursuit of high, honorable aims and to accomplish something worthwhile in life for himself and his good name.

His genial personality is engaging and his life is constantly being rewarded by the gain of new-made friends wherever he goes.

Through the press, he is announcing his candidacy and soliciting your vote and sympathetic influence, that is, if you deem him capable and deserving. If, after investigation, you do not find him so, of course he will not expect your help.

He feels well qualified to measure up to the required duties of the office. If he felt a doubt about his qualifications for efficient service, he would not be a candidate.

Prof. Taylor expects to devote all of his time consistent with his school duties, to a personal prosecution of an active canvas for the honor. He hopes to have the pleasure of meeting every voter and personally presenting his claims for the office.

He thanks those who have encouraged him to enter the race and proffers of support that have been volunteered him. He hopes to have the pleasure of also forming your friendship if he already doesn't have it, sometime during the progress of the campaign which he is now entering and which will be determined by the suffrage of the voters at the Democratic primary, or primaries of the coming summer. Consider his merits in making up your choice when you come to vote.

SWEET FLOWERS FOR THE LIVING

Enjoying a visit with our good friend, Walter B. Wilson, one of the editors of the McKinney Daily Courier-Gazette and Weekly Democrat - Gazette, while he was attending the supper at the Methodist church Wednesday evening. There may be a few men as good as Walter B. Wilson—but it's a cinch, there are none better. He measures up to all the requirements of ideal citizenship and has a quiet, unassuming, friendly, cheerful disposition, which makes and holds fast friends wherever he goes—and he has a host of such friends in East Collin. You are always welcome n Friendly Farmersville, Walter B.—So, come back often.—M. B. SMITH, Editor Farmersville Times.

FARM WOMEN HELP HUSBANDS SOLVE PROBLEMS

Miss Helen Dunlap, county home demonstration agent, is leading in a work that means much to the prosperity, contentment and beautification of the farm homes of our county. Her club women are leaders in their respective communities. They are helping their husbands make use of some of the land released by the cotton plan by planting a part of it in small fruits. Mrs. Johnny Morgan. Farm Food Supply demonstrator of the Clear Lake Home Demonstration club has reset her berry patch, reports Miss Helen Dunlap, County Home Demonstration Agent. At the demonstration of transplanting small fruits last week, Miss Dunlap advised Mrs. Morgan to take out every other row of berries and enlarge the patch. Thus the rows will be about six feet apart, the best distance for berries. The plants should be three feet apart in the row.

Mrs. Morgan has also taken out the side shoots in the middles and set them in rows in the new patch. This makes it possible to cultivate the plants more effectively and the berries will be more easily gathered.

Mrs. Morgan has advised the other club women that they may get plants of her to start berry patches of their own. This month and next is the time to transplant these berry vines.

The berries most reliable in this country are: McDonald, Early Wonder and Dallas. Miss Dunlap states that some other variety should always be grown on adjoining rows to the McDonald to insure its being pollinated. It will not successfully pollinate itself, hence when grown alone one does not get a full crop of berries.

Mr. and Mrs. Leonard Ray visited in Farmersville.

DOCTOR'S ANSWERS To Questions

Q. I am in a rundown condition due to a frequent bad cough and stomach trouble. What can I do to help this condition?

Ans.—This is not an unusual condition. You can help yourself by a diet which should include plenty of milk, fruits and vegetables. A good medicine like Dr. Pierce's Golden Medical Discovery, which any good drug store can supply, has my greatest confidence.

J. Wilson Spain Thinks He Will Announce

Meeting up with County Commissioner J. Wilson Spain, a representative of this paper inquired of him concerning his intentions about offering for re-election this year. Mr. Spain unhesitatingly says that he rather thinks that he would announce soon. Mr. Spain, who is an East Collin farmer of near Farmersville, has made an enviable reputation in the office for fidelity to duty and obliging service in dealing with the general public. He has been closer in office in recent weeks than usual since the county judge was so seriously injured in an auto wreck near Austin a few weeks ago. But he is happy to know that Judge Harrington is now steadily improving and back in his office practically every day. This will enable Mr. Spain and the other commissioners to be out more of their time over their respective districts than they have been able to get about during the judge's enforced absenced.

The Russian balloon "Syrus," under command of Paul Fedoseenko, rose (Tuesday) today in Moscow in a surprise flight to the highest altitude ever reached by man, more than twelve and three-fourths miles and hovered at that altitude taking scientific observations.

A howling "Norther" which struck McKinney late Sunday afternoon pushed the thermometer down to 30 degrees—two degrees below freezing—here early Monday morning. The cold north wind was accompanied by no clouds, rain or snow. It was a real "blow." The thermometer dropped 29 degrees during the night, from 59 degrees at 6:30 p. m. Sunday afternoon to 30 Monday morning. However, at noon, Monday the mercury was again rising, having gone back to 36. The sun was shining brightly, and the wind had abated.

The President's Birthday

TODAY is the fifty-second birthday of President Franklin D. Roosevelt. Millions of people in more than five thousand cities throughout our nation will pay honor to our great President by attending balls, receptions and entertainments.

Proceeds from these entertainments are to be sent directly to President Roosevelt to be used under his direction for the permanent endowment fund of the Warm Springs (Georgia) Foundation for Infantile Paralysis. Treatment facilities at the hospitals and the research of medical scientists in the laboratories there and elsewhere will give faith and hope to hundreds of thousands of today and tomorrow.

It was at Warm Springs that Mr. Roosevelt found new hope, restored that confidence which returned him to high public service and, at a crucial hour, put him at the head of the Nation. We signify our appreciation, in some part, by utilizing his fifty-second birthday anniversary as an opportunity to emphasize our esteem for him and to give individually to a cause that lies close to his own sympathetic heart.

Infantile paralysis has left its toll of crippled and impaired limbs. But thanks to our great President who, after having been relieved by treatment at Warm Springs, has inspired the interest of the people throughout the Nation in a united effort, the facilities there and elsewhere will be enlarged to treat victims of infantile paralysis.

The people of this community and throughout Texas join hands in paying tribute to the great constructive program inaugurated by President Roosevelt. Hail the leader on his fifty-second birthday!

Today's celebration is not only a charitable demonstration by the people of Texas and the Nation, but it is a recognition of their appreciation for our great President and the New Deal. The New Deal leads the people in an opportunity of joining hands in an endeavor to again restore prosperity throughout the Nation. The New Deal is dawning in Texas. Let's do our part. *"Texans! Let's Talk Texas."*

JOHN E. OWENS, DALLAS BANKER, IS SPEAKER AT ANNUAL BANQUET OF M'KINNEY CHAMBER COMMERCE

With an optomistic outlook for 1934 as its keynote, the annual membership meeting and banquet of the Chamber of Commerce was held in the spacious dining room of the First Methodist church Thursday night with an unusually large number of members and their ladies, as well as visitors, present for the occasion.

The Chamber of Commerce was characterized as "the most deserving institution of McKinney," by President James H. Merritt in his annual report, which covered the outstanding activities, aims and accomplishments of the organization during the past twelve months. He urged those present to give the local Chamber their liberal support, not only financially, but with their encouragement, cooperation and enthusiasm during 1934.

John E. Owens, vice-president of the Republic National Bank and Trust company of Dallas, a leader in Dallas civic and business circles, was the principal speaker of the evening. In his address he discussed the economic condition of this nation today, comparing it with yesterday, and declaring that we are coming into an economic era of management and control. His talk was spiced with bits of humor that kept his large audience of both men and ladies, well entertained throughout his address.

The speaker was introduced by Henry W. Warden, vice-president of the Collin County National bank of this city, who paid tribute to Mr. Owens' business ability and civic-mindedness in a well rounded address.

Rev. F. Lamar McGown, pastor of the South Wilcox Street Methodist church, was asked by Pres. Merritt to give the invocation.

Directors Named.

A. M. Scott, chairman of the nominating committee, made the report for that group, submitting a list of forty-eight directors who were unanimously elected to serve during 1934. These directors will meet soon and name officers for the new year. Four new directors were added to the list this year. They are R. F. Newsome, Leo Spillman, Mayor Joe E. Largent and W. C. Petitt.

Others serving on the nominating committee were Jack R. Ryan, George James and Ula Saunders.

W. Avery Dowell was chairman of the program committee for the occasion and arranged some of the city's and county's best talent, including Mrs. Joe E. Largent, wife of Mayor Largent, who gave two most enjoyable numbers, "I Dreamed I Dwelt in Marble Halls" and "The Last Roundup," and a male quartet composed of W. Hammond Moore, E. L. Kissinger and Elmer and Bob Parris, who sang three numbers, "Drink to Me Only With Thine Eyes," "Kentucky Babe" and "There's An Old Spinning Wheel." Mrs. Gibson Caldwell was accompanist at the piano for the musical numbers.

Glen Davis, representing Secretary Hubert M. Harrison of the East Texas Chamber of Commerce, was presented and responded with a few words at the request of President Merritt, calling attention to the meeting to be held at Sulphur Springs in a few days, and to the launching of a three-year agricultural expansion movement for East Texas.

The banquet, a most delightful one, was served by a group of Social Workers and Woman's Missionary Society ladies of the First Methodist church with Mrs. Walter B. Wilson, chairman of the Missionary ladies, and Mrs. W. K. Penn, chairman of the Social Workers.

Several out-of-town visitors were present from this and other counties who were introduced by W. Avery Dowell.

These visitors were: Glen D. Davis, assistant manager of the East Texas Chamber of Commerce, Longview; P. K. Craig, Philadelphia; E. H. Sieberg, Texas Electric Railway, Dallas; George H. Dermeyer, Texas Electric Railway, Sherman; Miss Joy Leake, Dr. J. C. Hicks, and Editor Arthur A. Bagwill, all of Plano.

Optimistic Address.

Launching out immediately, after his introduction, into a discussion of the economic problems of America and the Southwest, Mr. Owens, who brought the principal address, spread a spirit of optimism among those present for the year 1934 and "the future, in which we may hope for no such serious economic setbacks as the depression of the past four years." He described the mass psychology of the American people's faith in Roosevelt, "a leader sent to guide the American people in a time of great stress."

He was warmly applauded at the conclusion of his interesting and timely address.

Pres. Merritt's Report.

Pres. Jas. H. Merritt in his report, said: "Another year has been written on the pages of the McKinney Chamber of Commerce. History will probably record 1933 as a year of testing time, in which all business interests, all organizations and all associations were called upon to muster their full strength in waging the battles against the depression. This was particularly true of the Chamber of Commerce.

"It commenced on the local Chamber of Commerce organization's activities in enlarging its membership to the maximum, and in this it succeeded. Its membership was increased from 350 to 500 members, and the Chamber of Commerce was enabled to function in the manner it did because of the loyal support of its members.

"The Chamber of Commerce has been the medium through which the Roosevelt Recovery program has been carried out in this city and county. Through the Chamber of Commerce, the Collin County Relief Association was organized, and through it the Civil Works Administration was put into effect in this county. Through the Chamber of Commerce, the Collin County Cotton Association was organized, and through it the cotton acreage reduction program was put into effect in this county.

"Through the Chamber of Commerce, the Collin County Soil Conservation Association was organized, and through it the soil conservation program was put into effect in this county.

"Through the Chamber of Commerce, the Collin County Farm Bureau was organized, and through it the agricultural program was put into effect in this county.

"Through the Chamber of Commerce, the Collin County Unemployment Relief Association was organized, and through it the unemployment relief program was put into effect in this county.

"Through the Chamber of Commerce, the Collin County Free Fair was organized, and through it the annual county fair was held.

"Through the Chamber of Commerce, the Collin County Singing Convention was organized, and through it the annual singing convention was held.

"Through the Chamber of Commerce, the Collin County Old Settlers' Reunion was organized, and through it the annual old settlers' reunion was held.

"Through the Chamber of Commerce, the Collin County Chamber of Commerce Association was organized, and through it the Chamber of Commerce activities in the county were coordinated

LARGE GROUP OF TEACHERS AT MEETING HERE

A good attendance was present at the meeting of Collin county teachers held in the L. A. Scott Junior High auditorium this (Saturday) morning, beginninug at 10:00 o'clock. Teachers were present from practically every school in the county.

County Superintendent L. Dow Hendricks presided.

The program was very enjoyable and entertaining, including an address by Prof. F. M. Scott, director-general of the County Interscholastic League; an address by Prof. Stanley Thomas of Piano High school, regarding the county track meet, and an address by Miss Nell Parmley, deputy state supervisor of education on "Curriculum Building in Collin county."

T. M. Staples, county sanitation director, also made an address.

The meeting is one of several which are taking the place of the old County Teachers Institute.

N. M. Davis, ninety years of age, a resident of Van Alstyne, who has been a member of the Masonic fraternity for more than fifty years, being a Knight Templar and Shriner, celebrated his birthday at the home of his daughter, Mrs. O. Hopkins, of Fort Worth. Mr. Davis is a native of Wilkes county, North Carolina; entered the Civil War at seventeen, and served under Gen. Stonewall Jackson. He served four years and went through some major battles. He came to Texas in 1870, and rode to McKinney horseback, from Marshall. He at various times has visited St. John's Lodge, A. F. & A. M., in McKinney, being known here by quite a few of our old-time classmates. He is a splendid, high-class, old Southern gentleman.

COOK BROTHERS IMPROVE FARMS NEAR M'KINNEY

Former County Commissioner Lee Cook and wife, a few weeks ago, occupied their new home, recently erected on their farm about three miles north of McKinney. Their home is beautifully located, sitting back a few hundred feet from the McKinney-Sherman concrete highway with an east front and in the midst of some pretty trees. They own an excellent herd of registered Jersey cattle and in addition to their farming activites they sell milk, cream, and butter to customers in the city.

They have been living for several years, until recently, on the Dr. J. E. Gibson farm, located near the southwest limits of McKinney. This farm has been sold by the John Clementson and Lon Bizzard, heirs, who inherited it from Dr. and Mrs. Gibson who had no children. It was bought by Charlie Cook, of Dallas, a brother of Lee Cook and a son of Mr. and Mrs. S. F. Cook, a respected old McKinney couple.

Charlie Cook was born and reared in the Forest Grove community and lived in McKinney several years before moving to Dallas where he has succeeded well in a business way.

Charlie Cook has placed Alfred Roberts in charge of the Dr. Gibson 200-acre farm which he is having fenced with hog-proof wire and on which he will raise livestock. This farm is well adapted to livestock production. The land extends from the pike running west from McKinney to Wilson creek. Some of it is very rich, bottom, land. Its improvements are located on the pike, and stand just west of the old J. J. Thompson home, west of the Thompson gin.

George Howery was up from Wylie on business.

Retires As Legislator

HON. ELBERT M. BARRON of Van Alstyne

ELBERT BARRON NOT TO MAKE FLOTER'S RACE

Hon. Elbert M. Barron, Van Alstyne attorney, who has served two terms as Flotorial Representative from Collin and Grayson counties, announced Sunday that he would not be a candidate for re-election. He was an outstanding representative, being recognized as one of the leaders in legislative tax matters. In 1931 he was secretary of the legislative committee, which conducted an exhaustive tax survey.

He was coauthor of the $3,000 homestead exemption tax bill and was instrumental in writing and supporting many other tax measures. He will retire to devote his entire time to the practice of law.

Hon. Grover Burton, young McKinney attorney, has announced his candidacy for Mr. Barron's position in the legislature.

THIEF GETS $60 AT ELLIOTT LUMBER CO.

While Leo Spillman, manager of the Elliott Lumber company was out in that lumber yard waiting on a Mr. Robinson of Chambersville, Thursday afternoon, someone entered the office of that business concern, broke into the strongbox of the safe and made away with approximately $60. The robbery occurred about 4 o'clock Thursday afternoon.

There was no one in the office at the time, Mr. Spillman being out about 15 or 20 minutes, and discovering the robbery some 15 minutes after re-entering the business office.

About a year and a half ago, someone entered the Elliott Lumber company office and in attempting to gain entrance into the safe, knocked the knob off. The safe had never been repaired, the money being in a special compartment or strongbox. A chisel taken from the tool box of Mr. Blankenship, McKinney carpenter, and used to gain entrance to the money, was left on the counter.

Sheriff Walker was notified, he and his deputies making an investigation, searching for clues. Thus far the Elliott company manager has found no one who saw anyone enter or leave the building, while he was out of the office. He, therefore, has no idea of whether one or more persons perpetrated the theft.

This popular young McKinney business man says this is proving a memorable week in his life. Our readers will remember that on Monday night while he and Mrs. Spillman attended a Junior Chamber of Commerce banquet, someone stole their car, which was recovered the next day at Arlington. With the theft of his car, and money as well, he is wondering what to expect next, hopeful, however, that the powers "that be" will leave him alone in the future, at least, when one is thinking about thefts.

Prof. Don Helms of Frisch High school, who has been a patient in the McKinney City hospital for several days, is improving.

FARMERSVILLE CCC CREWS WIDENS ITS SCOPE OF SOIL CONSERVATION ACTIVITIES

SPLENDID WORK BEING DONE FREE OF COST TO FARMERS—CONCRETE SPILLS AND TERRACING ARE DONE BY THOSE TRAINED IN SOIL CONSERVATION—MASS MEETING FARMERS AT FARMERSVILLE TO BE HELD FEB. 3.

A meeting of all landowners within a radius of fifteen miles of Farmersville who are interested in securing the soil conservation work which is being done without cost to the landowner by the crews of the Farmersville C. C. C. Camp is called for Saturday, Feb. 3, at 2 p. m. in the Aston Cotton office in Farmersville.

The superintendent of the soil conservation crews of the Farmersville camp this week issued a statement which enlarged the territory to be served by the camp to include all farm lands between McKinney and Greenville and fifteen miles north and south of Farmersville. All farmowners who desire to avail themselves of this important free work by the government should attend the Saturday meeting, at which time plans will be made to provide further work for the camp crews.

During the past nine months, during which the East Collin camp has been doing this work of soil conservation, over six thousand acres of land have been terraced and further improved by concrete spills and drain correction to prevent soil erosion. After the farms have been properly terraced the government crews make the terraces and drain ditches permanent with the addition of the concrete dams and spillways.

It is important that the government crews be kept busy and also very important that while this free work is being done by the government all farms needing such improvement should be listed at once.

Senator Perkins May be in Race; Being Urged

(From McKinney Examiner Jan. 25, 1934.)

The political pot is boiling. The Examiner wants 500 in the races this year. And it looks like we are going to succeed. In another part of the paper today we print Senator Tom W. Perkins circular. It is rich. Read it. The former Senator and Mayor is being urged to enter the race for Senator from this the Tenth District. He served this district many years ago. If he runs as well on his "repeat race" for the State Senate as he has always done when he made "comebacks" on the race for Mayor of McKinney, then it will be some race this year, believe us.

Tom W. says he is not going to run—but, RESERVES THE RIGHT TO CHANGE HIS MIND.

That fellow, Joe Moore of Greenville, who has served 10 years in the State Senate, is thinking of running for Lieutenant Governor. But Joe may conclude to run again for the Senate. If he does and runs as fast this time as he does when we catch a glimpse of his car going through McKinney on up towards Celina to eat chicken dinner with his mother-in-law, then, look out boys—

Tow W. says he has been urged to run for several offices, including Governor, U. S. Senator, Lieutenant Governor and Congress. Then adds: "Sincerely, quite a number of people have asked me to run for Congress against Sam Rayburn. I tried Sam a whack or two, and you can believe me or not, he is no short or quarter horse on the Congressional race track. Sam is fifty, single, fat, slick and fine, and it seems, the longer he runs, the faster he gets. * * * Sam won't be bothered with me during 1934."

Now, Sam can rest easy until some one else announces. Sam reminds us of a mule-eared rabbit. Away off in the field he is attending to "business." Flips his ears around quietly and listens—but never forgets to attend to BUSINESS. Later he hears something from the sidelines. And he moves a little further off—always with only three feet down. Later if he concludes that "they" really are coming, he puts down all four feet and there's just one long streak of mule-eared rabbit—just one long streak of Rayburn. It has been that way for 20 years. The people know Sam Rayburn—and they love him, trust him and are proud of him. He is busy now away up yonder at Washington. Helping our President in the great program that is hoped will literally save the world. No time to bother Sam now. So we are glad he is going to have a clear track—or is he? There are rumblings. But let us hope and we believe they are only rumblings.

We do not know what our friend Tom W. is going to do, of course. But if he does enter the race, we are going to be tied up again between two friends—Wallace and Tom W. But there is hope, for Tom W. winds up by saying:

"The rainbow of hope, the Blue Canopy of Heaven. God and Franklin D. Roosevelt, have come to, rescued and saved the only free country and people on earth today. Let us be thankful. Let us give praise. God save the common people, is my prayer."

P. S.—If Hughston, Perkins, Moore and Harris all get in the race the "gayety of nations" will sure be pepped up.

Mrs. J. R. Nickerson of Branch was a welcome caller at the Daily Courier-Gazette and Weekly Democrat-Gazette office Monday. She is a good friend and loyal subscriber of our paper and appreciates its weekly visits. Coming with her in the same car to McKinney were her son, W. T. Nickerson, her daughter-in-law, Mrs. Ann Nickerson, and J. M. Donison.

Mrs. Doyle Nelson, residing on Route 1, Anna, a patient in the McKinney City hospital, is reported to be resting fairly well from an operation to which she submitted Tuesday evening. Mrs. Nelson is a daughter-in-law of Mrs. Webb Nelson of this city.

We are glad to enroll J. R. Byars, Route 5, McKinney, for the Weekly Democrat-Gazette for the ensuing year. He also takes the Semi-Weekly Farm News at clubbing rate. He gets two one dollar papers for only $1.50. He also gets a good combination of reading, matter for the ensuing year.

Don Helms, teacher in the Frisco Public schools, is a patient in the McKinney City hospital, following an operation. He is a brother of Cameron Helms of Celina, but formerly of this city.

Prof. J. H. Jackson of Farmersville was in this city Saturday shaking hands with the people. Informed this editor that he will soon announce for County Superintendent of Public schools.

Mrs. Leslie Ogle of Allen underwent a serious surgical operation at St. Paul's in Dallas Wednesday. She is recovering nicely.

Jack Whitt and son, LeRoy, residing on Route 1, McKinney, are both ill in the City hospital in this city where they are being treated.

AGENT M'CULLOUGH ALREADY RECEIVED 1562 CONTRACTS

According to County Farm Agent Jack P. McCullough and the County Cotton Reduction committee composed of Henry V. Warden, chairman; James H. Merritt and Dr. W. T. Hoard, a total of 1562 contracts for reduction of 1934 cotton acreage in this county have already been received. This is approximately half of the contracts expected. Agent McCullough states that at least 3,000 contracts from Collin farmers and landowners are expected before the planting season opens.

These 1562 contracts total 30,462 acres to be taken out of cultivation. Collin county is expected to take out of production this year at least 75,000 acres.

PRINCETON BOYS WIN DISTRICT CHAMPIONSHIP

Before a record breaking crowd, the Princeton High Panthers won the District Class B championship of Commissioner's District No. 3, defeating the Culleoka High Indians, 21-20, on the Princeton gym court Friday night. There was never over two points difference in the score and the issue was not settled until Kerr Crosswhite looped a field within five seconds of the gun to give Princeton the one point victory. H. Clayton and Kerr Crosswhite led the scorers for Princeton with 6 points each, while Butler was high scorer for Culleoka with 7 points. Clayton Brother played a great game at guard for Princeton while Jenkins and Johnson starred for Culleoka.

Judge T. O. Murray

Announces For Local Representative From Collin County

JUDGE T. O. MURRAY.

Judge T. O. Murray, of McKinney, authorized us to place his announcement in the Daily Courier-Gazette and Weekly Democrat-Gazette as a candidate for local representative from this county, subject to the Democratic primary of July 28.

Judge Murray is a native of Collin county, having been born on the old Meredith Ashlock farm in the Foote community, west of McKinney, now owned by Mr. and Mrs. Ed Cashion. His father, the late T. R. (Uncle Tom) Murray, a gallant Confederate soldier, later bought a farm in the Wetsel community, about four miles south of McKinney where he moved and principally reared his family of children. Judge Murray was educated in the district school of his community, attended Grayson college, Whitewright, for four years, and also attended Texas State university, at Austin. He was brought up on the farm, knows the toils, handicaps and disappointments encountered by the average farmer to whom his heart interest goes out in genuine sympathy. Judge Murray taught school for about fifteen years during which period he either went to school in the summer or worked on the farm. He then studied law in the State university, was admitted to the bar and has built up a creditable practice here at the McKinney bar.

Judge Murray served in the Texas House of Representatives in the Twenty-Ninth and Thirtieth legislatures and later was twice elected County Judge of his home county, serving in the latter capacity from 1921 to 1925. During his tenure of office as County Judge, Collin either built or rebuilt its piked road system, spending several million dollars on them. The matter was handled in a high class, efficient manner in the interest of the taxpayers and to the credit of the judge, his four County Commissioners and to County Engineer Frank Cawthorn.

Judge Murray's friends believe that he is better qualified to serve the county now than ever by virtue of his intimate knowledge of county affairs and needs and his service in two previous legislatures.

Whatever equipment for efficient public service that his experience in the past has given him, he is willing to place at the command of the people of Collin county in the legislative halls of the state in helping to solve the problems of the present crucial era brought on by the prolonged depression, deflation of values and financial distress that has enveloped such a large percentage of the population of the entire nation.

He offers for the position solely upon his own merit and on his record and integrity in office during the past. If you elect him, he pledges his utmost ability and continued fidelity to public trust in representing you in our state legislative halls. He is a man, who has always taken a lively interest in all those things that make for the development and betterment of our country—materially, educationally and morally. His well grounded principles along these lines are an earnest to the voters of his continued fealty to the nobler aspects and problems of the masses as they arise from day to day for action in legislative halls or in other phases of the complex interests of the great Lone Star state and its noble people.

Judge Murray trusts that each and every reader will carefully consider his merits and qualifications for the office. If you think him capable and best fitted to serve your interests in an effective way and that he is worthy of your confidence to represent you, he would appreciate your vote and active interest and influence.

He proposes to make an active canvass to meet as many of the voters as possible during the progress of the campaign and courteously asks your kindly interest and support.

These papers bespeak for his candidacy your most earnest consideration. He will appreciate anything you can do or say in his behalf.

DEATH'S SUDDEN CALL FOR LUTHER SNIDER, M'KINNEY LETTER CARRIER, AT HIS HOME HERE TUESDAY NIGHT

DEATH OCCURRED AT 9:30 P. M. AFTER WORKING ALL DAY AS USUAL AND EATING HEARTY SUPPER—WAS IN SIXTIETH YEAR—BORN AND REARED AT LUCAS—OF PIONEER COLLIN ANCESTRY—IN POSTAL SERVICE 25 YEARS—FUNERAL AT FIRST CHRISTIAN CHURCH.

Our city was shocked early Wednesday morning by the announcement of the sudden death of one of its most esteemed citizens, Luther Snider, at his home, 309 South Church street. After working all day, as usual, as mail carrier on the South and East routes and eating a hearty supper Tuesday evening, the grim messenger bore him away at 9:30, after only a little more than an hour's illness, his death being due to a heart attack.

Funeral Wednesday afternoon.

Funeral services were held at 3:00 o'clock last Wednesday afternoon at the First Christian church, conducted by his pastor, Dr. Clifford S. Weaver, assisted by his life-long friend and cousins, Rev. J. Ben Snider, and Elder A. H. Snider. Interment followed in the Fitzhugh cemetery at Forest Grove where the dust of so many of his ancestors, relatives and friends are sleeping. The Isaac Crouch Funeral home directed the burial arrangements. Active and honorary pall bearers were mainly selected from among his fellow Postal workers:

Active Pall bearers—Tom Cloyd Roy Wright, Doc W. Hill, E. B. Nelson, Weeden Franklin and Jim P. Thomas.

Honorary Pall bearers—Postmaster Wallace C. Wilson, Assistant Postmaster Hugh L. Kirkpatrick, Ernest Wilson, Tom Mitchell, Jeff Smith, Dr. H. F. Wolford, Dr. P. D. Robason, Pearce England, Claude West, Phil West, George Lepeard, Giles McKinney, Lester Russell, Bob Bowman, S. F. Cook and Jim Cook.

Many messages of condolence were received by the bereaved widow and children and numerous floral offerings of beautiful design banked his bier and covered his grave as tokens of esteem in loving memory of his worthy life and in expression of sympathy for his surviving loved ones.

Native Collin Born.

Luther Snider was born, September 15, 1874, on the farm of his parents in the Lucas community about ten miles southeast of McKinney. At death he was 59 years, 4 months and 15 days old. He was a son of A. L. (Bud) Snider and wife, whose maiden name was Mary Usttus Bailey, a daughter of Jonathan Bailey. He was a grandson of William Snider. His ancestors came to this county and settled in the Lucas community prior to the Civil War. The deceased attended district school at Lucas, where he grew up on the farm and moved to McKinney about thirty-five years ago. He had been in the Letter Carrier service for about twenty-five years in which calling he was commended by Postmaster Wilson as efficient, absolutely dependable and always an obliging, courteous representative of his Government in the capacity in which he so long and faithfully served.

An Active Christian.

When a lad of only about fifteen, the deceased made the good confession at Lucas, was baptized and received into the Christian brotherhood by the late Elder J. Ben Faulkner. He was active in Sunday school and church before moving to McKinney, serving both as teacher and Sunday school superintendent, and also as deacon of the Lucas church. After moving to McKinney, he identified himself with the First Christian church and had served as deacon here for several years. He was well grounded in the Christian faith and devoutly lived in accord with its teachings and principles. He was especially charitable by nature; no appeal that he could respond to ever went unanswered. His sympathy went out to the afflicted and the unfortunate. No one enjoyed extending a brotherly or helpful hand in time of misfortune or sorrow more than did Luther Snider. He was possessed of a kindly, optimistic nature, whose homely humor brought many smiles to friends and associates. He loved to scatter sunshine and help bear burdens, and try to make the world brighter and better. Among his most outstanding traits of character were his affection and tender devotion to his wife and children, being an affectionate husband and devoted father. He was a good provider, whose worthy life at home or on the streets, ever pointed the way to nobler living as an example for his children and his neighbors' children to model after.

Married Forty Years.

Luther Snider and Miss Della Kerr were married, June 4, 1893, and for forty years had shared life's joys, sorrows and cares together. His loving companion, through the long years of their wedded life, is heartbroken over her sudden bereavement. He is also survived by four children—Emmett Snider of Dallas; Graves Snider, at home; Mrs. Shirley Taylor of Melissa, and Miss Mary Katherine, at home, who is a McKinney High school pupil. One little son, Eugene Kerr Snider, preceded his father to the grave. Among other survivors are also three grandchildren; his aged mother, Mrs. A. L. Snider, one sister and four brothers, as follows: Mrs. Will Deal of the Lucas community, Jim Snider, formerly a McKinney barber, but now of Amarillo; Dick Snider, Walter Snider and Ervin Snider, all of McKinney. Numerous other relatives—cousins, nephews and nieces—also reside in the city and county.

The deceased was an exempt member of the McKinney Volunteer Fire Department, holding at the time of his death a gold medal for seven years of active service.

He was also a Woodman of the World and had served as Consul Commander of Magnolia Camp of this city and also as Captain of its degree team and had risen to the rank of Lieutenant-Colonel in the uniform rank of that fraternity.

Mrs. J. F. Cox, President of the Anna Parent-Teachers Association, entertained with a dinner Thursday night at her home for officers of the P.-T. A. and school faculty. Prior to the dinner hour, games of "42" were played. present were: Misses Janice Taylor, Annie Laurie Lane, Norma Sportsman, Irma Sinclair, Arlyn Graves, Florence Helton, Frances Milligan, Kitty Billingsley, W. Powell, Miss Gertrude Arnold, Miss Jewel Giles, Miss Annie Lou Powell, and Mrs. Robel Cox and Mrs. Elizabeth Alexander of Dallas.

Rev. S. W. Miller and wife visited Sunday at the home of the latter's sister, Mrs. R. W. Gribble, and husband in McKinney. Rev. Mr. Miller is a superannuate minister who heard his friend, Rev. Minor Bounds, preach at the First Methodist church Sunday night. Rev. Mr. Miller officiated at the marriage of Rev. and Mrs. Bounds and is one of their foremost pastors and most

STAND-WAITING; YOUR SERVANTS

(Dr. J. J. Taylor, State Press, Dallas News.)

Editor Tom W. Perkins of the McKinney Daily Courier-Gazette and Weekly Democrat-Gazette used two columns of his publication a few days ago to enumerate the offices he might run for, and then wound up by saying he wasn't going to run for any. He has been State Senator and he has been Mayor of McKinney. Above all, he has been President of the Texas Press Association. While these experiences fit him for other public tasks, inasmuch as he left a fine record in all the capacities he has served, he has decided to forego politics and stick to the newspaper business. Perhaps Mr. Perkins is proceeding on the theory that they also serve who only stand and wait. Newspaper folk do a lot of standing and waiting, and if that is service they are patient servants.
